About Me

I am a senior, Computer Science major at NKU. I have experience with a lot of different programming languages and am infinitely curious and always willing to learn. At the moment, I'm really interested in learning functional programming. I've been primarily a Linux user for half a decade.

Experience

ReNewport Air Quality Dashboard May–Aug 2024
Used R and SQLite to pull and store data from multiple sources.
Regularly met with different people, navigated their desires for the project, and regularly gave project updates.
Gave presentations about my role in the project to NKU Math Department, at Mathfest 2024, and presented a poster at The Heather Bullen Summer Research Celebration.

Education

Northern Kentucky University 2022–2025
Bachelor's in Computer Science
GPA: 3.97

Gateway Community & Technical College 2018–2021
Associate's of Applied Science
GPA: 4.0

Skills

Languages: Bash, Java, C/C++, Python, HTML/CSS, R, SQL, Haskell

OSes: Windows, Linux (Ubuntu, Arch Linux, NixOS)
